

## Portable Eyewash Station

Model: **ESW06014**

- Type: Portable
- Material: PE
- Application: for rinsing eyes
- Working Temp.: 5°C-35°C
- Flushing Time: ≥15min

The portable eyewash is made by PE, providing timely protection when there is hazardous chemical injures to the eyes.

Model: **ESW06014-CA**

- Type: Portable
- Eyewash Material: PE
- Cart Material: Steel
- Application: for rinsing eyes
- Working Temp.: 5°C-35°C
- Flushing Time: ≥15min

Portable eyewash with cart and water collection basket. The eyewash is mobile with cart, and waste water is collected by the basket.

Portable eyewash station is used in places where there is no fixed water supply or frequently changing working areas. The advantage of portable eyewash station is that it is a mobile device without any installation. It is widely used in chemicals, oils, electronics and mining industry, etc.

## Eyewash Nozzle with New Design

The special design makes the nozzle realize the water flow from inside to outside. It provide soft fluid for rinsing the eyes.

Model: ESW120NYH

# Selection Guide

According to OSHA 29 CFR 1910.151, "suitable facilities for quick drenching or flushing of the eyes and body shall be provided with the work area for immediate emergency use." Before installation of an eyewash, it is necessary to check the working environment. The sheet below would help with proper eyewash selection.

Model	Image	indoor	outdoor	temp. below 0°C	normal temp.	with water supply	without watersupply	nearby coastal area	high corrosive environment
